

# QUARTERLY BULLETIN

## CHHATTISGARH

### JANUARY – MARCH 2019

We are pleased to report that the Chhattisgarh program is on track and we have focused and delivered on recruitment, training and equipment up-time.

# BASELINE QUALITY ASSESSMENT

## ISHA (Improving Systems for Healthcare Availability) Project Introduction:

Ekam has partnered with UNICEF Chhattisgarh for ISHA (Improving System for Health Care Accessibility) project in three high priority districts (Bastar, Narayanpur and Bijapur) of Chhattisgarh. The main objective of this project is to improve the quality of MCH (Maternal and Child Health) care within high priority districts in Chhattisgarh by upgrading the

- **Skill and knowledge of staff nurses,**
- **Equipment at Labor room, and**
- **Facilities in SNCUs.**

**The overall objective of the project is to enhance healthcare delivery within health units that provide MCH care. This will be done by**

1. Efficient Master (mentor) nurses across 3 HPDs to impart further training on cascade basis;
2. Enhancement of skills and knowledge of Staff Nurses & ANMs;
3. Establishment of Skill labs;
4. Recruitment of trained HR(staff nurse) in labor rooms of 3HPDs;
5. Maintenance of quality standards along with data management in labor room in 3 HPDs.

## ACTIVITIES

1. **Second spell** of training was conducted for mentor nurses in February.
2. Mentor nurses visited on an average 33 facilities (21 PHCs and 12 CHCs) and trained **104 field staff** in a month.
3. **3 SaQsham nurses** for labor room are doing duty in 3 district hospitals for improving the quality standards.
4. Done the set up of skill lab in Bijapur and Naryanpur.
5. **731 blood and environment samples** have been collected from 19 SNCUs for microbial surveillance.

# WORKSHOP OF LABOR ROOM STAFF

A workshop was conducted for labour room staff at AIIMS Raipur. Ekam Foundation Raipur facilitated the training on microbial surveillance of Labour room and biomedical waste management at AIIMS Raipur on 15th April'2019. A total of 39 participants from different district hospitals of Chhattisgarh participated. The participants included Gynecologists, Medical Officers and Staff Nurses. Dr. Anudita Bhargav, HOD of Microbiology Department led the workshop.

## SNCU UP-GRADATION

Ekam has partnered with NHM for upgrading the SNCUs of Chhattisgarh through HR recruitment.

### Outcome

1. 22 SNCUs are functional in 21 districts of Chhattisgarh. Out of that 2 (Sukhma and Kondagaon) units were functional in February only.
2. 342 cold calls have been done to units for enquiring about the status of SNCUs.

## HR STATUS in SNCUs

STAFF NURSE  
**281**

DATA ENTRY  
OPERATORS  
**21**

DOCTORS  
**22**

## DANTEWADA PROJECT

Ekam has forged a partnership with the District Collectorate for improving the health facilities in Dantewada district through providing HR, Equipment maintenance and Nurse mentoring.

### Outcome

1. 20 Staff Nurses, 1 Hospital administrator, 10 OT technicians and 1 biomedical engineer are working in District Hospital.
2. 4 mentor nurses have visited 14 facilities (11 PHCs and 3 CHCs) and trained 45 field staff in each month of reporting quarter.
3. Biomedical engineers made 66 preventive visits for maintaining the equipment in facilities.
4. 76% of the equipments were functional in Facilities.
